7. You will be able to pay via credit card or mail in payment.

*Remember the district is paying for one course this year. If you are taking a dual enrolled math class, that one was paid. If not, English was paid first, then history if you aren't taking English. Only pay the amount you have to pay. 150.00 for History and 225.00 for English. The district will pay the rest so don't worry if you still have a balance.
