June 4, 2021

Dear Parent or Guardian:

School records indicate that \_\_\_\_\_ has not yet passed the following portion(s) of the LEAP 2025 Test for:

Your child was either absent for fall and/or spring testing during the 2020-2021 school year or did not meet the minimum required score. Passing an English, a Math and either a Science or a Social Studies LEAP test is one of the state requirements for graduation.

Retakes will be administered this summer during the week of June 21-25. If your student wishes to take the test this summer, there will be virtual summer remediation available. Computer and internet access will be necessary to take advantage of the summer remediation which will include online coursework through Edgenuity. The online tutoring is available at <https://learn.edgenuity.com>. The student's username and password are the same as their school login (student ID number and password that they selected). If the student has forgotten their password, they can access <https://identity.stpsb.org> to reset their password, or call the IT help desk at (985) 898-6416. Please note the test(s) that your child needs to take, and the date that test will be given at Slidell High School. If your child is unable to attend the testing this summer, makeup testing will be offered again in December.

The testing dates are as follows:

English I – Monday, June 21  
English II – Tuesday, June 22  
Geometry – Wednesday, June 23  
US History – Wednesday, June 23  
Algebra I – Thursday, June 24  
Biology – Friday, June 25

On testing day, students should arrive by 8:15am, testing will begin at 8:30am. Drop off will be in the front of the school, and students should enter by the library. Masks should be worn and will be provided if needed. It is recommended that students should bring a light snack and a bottle of water as well as a calculator if they are taking a math LEAP.

If you have any questions, please email [carolyn.duffaut@stpsb.org](mailto:carolyn.duffaut@stpsb.org), or call the school at (985)643-2992.
